

### Warnings

Before to use the tool, please read carefully the instruction contained in this manual. Improper or unsafe use of this tool can result in death or serious bodily injury. This manual of instructions constitutes an integral part of product and it has to be edited by the end user for every possible future consultation. It contains important informations about the safety use of the product.

### Use destination.

This tool and its accessories, must only be used for the purpose for which they have been conceived. A different use from that one suitable could cause damages to people, animals or things and it's considered improper and unreasonable action. The producer can't be considered responsible for possible damages caused by improper, wrong and unreasonable uses, as for example, the un-observance of the safety instruction, the use of no original accessories and operation not authorized on the product.

### Precaution for use

The informations in this section will help you to comply with the warranty requirements and keep the lamp in good working order.

- Turn off the lamp when it is not in use.
- Never leave the lamp with the battery completely empty.
- Fully recharge the battery if the lamp is not to be used for a long time.
- Before cleaning the lamp, always disconnect the charging cable.
- Clean preferably with a dry or slightly damp cloth. Do not use solvents, alcohol, corrosive chemicals or aggressive detergents.
- To use, charge and store the lamp, follow the temperature conditions given in the chapter on TECHNICAL FEATURES. Do not leave the lamp in a hot or cold environment for a long time.

### Technical features

<b>LAMP:</b>		<b>BATTERY RECHARGE:</b>	
SIZES (mm):	249x32.5x10.5	RECHARGE:	5 h
WEIGHT (gr):	120	BY:	micro USB
<b>MATERIAL:</b>		<b>WORKING AND STORAGE TEMPERATURE:</b>	
ALUMINIUM + PLASTIC MATERIAL		STORAGE:	-20°C TO +50°C (1 YEAR)
<b>FEATURES:</b>		CHARGE:	-10°C TO +40°C
TYPE:	COB LED	WORKING:	-10°C TO +40°C
BRIGHTNESS (min - max):	180 lm - 360 lm		
FUNCTIONS:			
	HIGH BRIGHTNESS (100%)		
	LOW BRIGHTNESS (50%)		
	FLASH		
<b>BATTERY:</b>			
TYPE:	Li-Po		
FEATURES:	3.7 V 1800 mAh		
<b>AUTONOMY:</b>			
HIGH BRIGHTNESS:	1.5 h

### Safety instructions

#### Attention:

failure to observe these safety instructions could cause serious damage to people, the environment and the lamp itself.

- This device is not a toy. Keep out of reach of children.
- The packing material (cardboard box, plastic sheets, etc.) must not be used by children for play.
- Do not immerse or subject the device to water jets.
- Do not look or point the light directly in your eyes.
- Do not use the lamp in a potentially explosive atmosphere, such as near combustibles. Flammable gas or dust. Respect and abide by the limitations and provisions of the law.

- Do not throw into fire or expose to flames. Danger of explosion.
- Falling events can irreparably damage the lamp and its accessories and are not covered by warranty. In this case, in order to avoid any risk, do not use the lamp and its accessories, but contact an authorized service center.
- Do not try to open the lamp or the accessories supplied; there are no replaceable parts. Interventions by unqualified personnel are potentially dangerous and invalidate the guarantee.
- Use only the accessories supplied with the lamp. The use of non-original accessories will invalidate the warranty and could be a source of danger with the risk of fire, explosion, liquid leakage or other dangers. For the availability of original accessories, contact an authorized dealer.
- For use and charging, follow the temperature conditions listed in the chapter of TECHNICAL FEATURES
- Avoid exposure to temperatures that are too high, which can reduce the life of electronic circuits, damage batteries and deform or melt plastic parts.
- Also avoid exposure to too low temperatures which can reduce battery life or make plastic components fragile.
- Avoid handling or disconnecting the charging device by pulling it by the cable.

### Instructions for use

The lamp is switched on by the button on the back: at the first press the LED is at Maximum intensity; at the second pressure to the Minimum intensity; at the third press in Flashing mode; the fourth press switches off. The same Power button indicates the state of charge of the battery: if at the first press it lights up green it indicates that the battery is charged; otherwise it lights up red and therefore needs to be recharged.

The lamp is equipped with a hook on the upper end and two magnets.

The lamp battery is recharged using the supplied USB cable.

### Disposal informations

This equipment falls within the equipment field of Directive 2012/19/ EU. The crossed-out bin symbol on the product and / or its packaging means that at the end of its life the product must be treated separately from household waste and therefore must be sent to the appropriate disposal and recycling centers. This operation is the responsibility of the user. Disposing of the product at the appropriate dedicated facilities helps to avoid possible negative effects on the environment and favors the reuse of renewable resources.

### EU declaration of conformity

This product complies with the provisions of the following European Directives and related harmonized standards:

EMC (2014/30/EU)	EN 55015:2013+A1:2015
	EN 61547: 2009
	EN 61000-3-2:2014 EN 61000-3-3:2013
RoHS (2015/863/EU)	IEC 62321-2:2013
	IEC 62321-1:2013
	IEC 62321-3-1:2013
	IEC 62321-4:2013
	IEC 62321-5: 2013
	IEC 62321-7-1:2015 IEC 62321-7-2:2017 IEC 62321-6:2015

### Warranty

This lamp is guaranteed for 24 months from the date purchase. By warranty we mean the repair or replacement free of charge, including labor, of components recognized as defective in manufacturing and material. The guarantee does not apply in all those cases in which the damage is caused by neglect, use and maintenance that do not comply with the instructions in this manual; in particular in case of product tampering or user negligence. The warranty does not apply to failures caused by inductive / electrostatic discharges or discharges caused by lightning or other events external to the product. Parts subject to wear due to use, connection cables and connectors that do not have manufacturing defects are excluded from the guarantee.
